

PUNCHKARD

THE WORK RECORD FOR SKILLED TRADES

Punch in. Your clients get a text. Punch out. They get the receipt.

Built for plumbers, electricians, HVAC techs, handymen, landscapers, and the people who show up. Two taps per job. Your clients in the loop. Your work on the record.

Verified work record

Every punch GPS-stamped, time-stamped, customer-confirmed. Anchored daily to a court-recognized timestamp authority.

Auto-text your clients

Punch in — they get an ETA text. Punch out — they get photos, an invoice, and a Pay button.

Get paid in the app

Card, Apple Pay, Google Pay, ACH. Money in your bank in 2 days. No invoices to chase.

Reviews that share themselves

Customers leave a review on Punchkard, then tap once to share to Google, Yelp, Facebook, or Nextdoor.

Multi-visit jobs + estimates

Drywall + paint over 3 visits? One job, three records. Free or paid estimates that convert in one tap.

License renewal alerts

SMS at 60, 30, 14, 7, and 1 day before your license expires. Never miss a renewal.

PUNCHKARD

RECORDS THAT HOLD UP

Records that hold up. **Privacy** that doesn't sell out.

Punchkard's value is being trusted with the records of your work and your customers. Three reasons that trust is enforceable, not promised.

TAMPER-PROOF

Locked by math

Every punch signed and chained to the prior. Daily-anchored to FreeTSA — recognized by U.S. federal courts. Even Punchkard can't alter records after the fact.

ENCRYPTED

Codes stay private

Alarm codes, gate codes, garage codes — encrypted on your phone before sync. We can't read them. Neither can a leaked backup.

YOURS

Export anytime

Full job history, photos, client list, payment history. No per-export fees. Cancel and your records still belong to you.

Get on the beta list

We'll text you when the beta opens. Free 30 days. No credit card. Cancel by text.
